Safety Data Sheet Exemption Statement

Title 29 of the Code of Federal Regulations, Section 1910.1200, specifically states that the requirement to publish a Safety Data Sheet (SDS) does not apply to articles. An article is defined as follows:

Article means a manufactured item other than a fluid or particle: (i) which is formed to a specific shape or design during manufacture; (ii) which has end use function(s) dependent in whole or in part upon its shape or design during end use; and (iii) which under normal conditions of use does not release more than very small quantities, e.g., minute or trace amounts of a hazardous chemical (as determined under paragraph (d) of this section), and does not pose a physical hazard or health risk to employees.

To the best of our knowledge and belief, products in the Precision Brand Products, Inc. catalog that meet the article definition are:

Arbor spacers and shims	Punch and Die Sets
Drill Rod	Shim stock, all materials
Feeler Gage	Threaded Rod
Hose Clamps	Tool Wrap
Keystock	Wire
Maintenance Kits	

If more information is required, please call 800-535-3727 or contact us by email at precisionbrand@pbrand.com.
